

Devashish Jadoun

+91-9557670373 | jadoundevashish9@gmail.com | [portfolio](#) | [github](#) | [linkedin.com/in/devashish_jadoun/](#)

OBJECTIVE

Aspiring Data Scientist with hands-on experience in Python, SQL, Advanced Excel, and Power BI. Skilled in analyzing data, generating insights, and creating data-driven solutions.

EDUCATION

- | | |
|--|-------------------------------|
| • Bachelor of Engineering in Computer Science and Engineering
Vidya College of Engineering | Meerut, India
2021 – 2025 |
| • Intermediate
LA International School | Meerut, India
2020 – 2021 |
| • High School
Ketan Convent School | Aligarh, India
2019 – 2020 |

SKILLS

Technical	SQL, Python, Statistics , Data Visualization, EDA , Machine Learning (Basics)
Tools	Power BI, Excel , Jupyter Notebook , Git & GitHub , SQL , MySQL
Libraries	Tkinter , Pandas , Numpy , Matplotlib & Seaborn
Soft Skills	Critical thinking , Data - driven decision making , Adaptability , Project ownership

EXPERIENCE

Python Programming Intern | Codsoft

- Gained hands-on experience with Gith and Github while desiging and developing interactive GUIs with advanced features using Python libraries like Tkinter and other relevant modules expanding innovation and user interactivity Oct 2024 - Nov 2024
- Developed 5 GUIs including a to do list ui , rock paper scissor game , contract book and more.

Data Science and Analytics Trainee | Ducat , Noida

- Gaining hands-on experience in Python, SQL, Excel, and Power BI for data analysis. July 2024 - Present
- Learning data cleaning, visualization, and basic machine learning concepts.

PROJECTS

OLA - Identified the reason & trend for ride cancellation ([link](#))

- **Process** - Cleaned and processed the data from multiple sources , applied [SQL](#) queries , visualised the trend using [Power BI](#).
- **Results** - Reduced the cancellation rate by 10% by implementing new strategy.

Netflix Movie Data Analysis ([link](#))

- **Process** - Performed [Exploratory Data Analysis \(EDA\)](#) on [9,000+](#) Netflix movies using [Python \(Pandas, NumPy, Seaborn, Matplotlib\)](#). Cleaned and preprocessed the dataset, handled missing values, and analyzed key trends.
- **Results** - Identified that [Drama \(14%\)](#) was the most frequent genre, [Spider-Man: No Way Home](#) was the most popular movie, and [2020](#) had the highest number of movie releases, providing key insights into content trends.

Hospitality Data Analysis (Power BI Dashboard) ([link](#))

- **Process** - Analyzed [134K+](#) [bookings](#) across [25 hotels](#) using [Power BI](#). Processed data from multiple sources, applied [DAX functions](#), and visualized key business metrics like revenue, occupancy, and booking trends..
- **Results** - Identified weekend occupancy peaks, revenue fluctuations, and booking patterns, helping improve hotel management strategies, leading to a potential [12-18% increase in revenue realization](#).

CERTIFICATIONS

- **LEETCODE** :- Badges ([link](#))
- **PANDAS , NUMPY** ([link](#))
